## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

Claims 16-28 are rejected under 35 U.S.C. § 103 as being unpatentable over SENNEWALD (GB 1,266,623) and SENNEWALD (GB 1,266,624) optionally in view of CALCAGNO (USP 3,714,237) for reasons of record. The newly added limitations to the claims are not seen to further distinguish the claims from the prior art. The requirement that sufficient particulate catalyst be present to allow for dissipation of heat of reaction is not seen to require an amount that is any different from what is exemplified in the prior art. Merely reciting an inherent property of fluid bed catalysts does not define a catalyst that different from the prior art catalysts. The catalysts and all of its properties are one and the same regardless of whether the prior art recites all such properties. The claim limitation as to total oxygen content is not seen to be substantially different from what is taught by the prior art. The claims appear to read on the amount exemplified in the prior art, note Example 2 of the references uses 8% oxygen which is apparently within the claimed range. Note applicants' claim 26 which indicates that the amount may be 8%. Also, note the top portion of page 9 of the specification that the amount may be 8%.

### ***Double Patenting***

The rejection of claims 16-28 under the judicially created doctrine of obviousness-type double patenting over claims 1-12 of USP 5,550,281 and claims 1-17 of USP 5,710,318 has been obviate by the terminal disclaimer filed with applicants response.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time

policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
